Residential & Commercial Projects

SINCE 1978

A MAN'S AMBITION; A GROWING LEGACY

Once modest contractors started by Eng. Samir Doss, now quickly becoming one of the country's most dependable residential, commercial, and administrative real estate developers.

El Batal Developments, a growing family of born-and-raised Egyptian engineers and real estate developers with a passion for transforming plain earth into tangible constructions.

Throughout 40 years of operation, we've established a diverse portfolio of signature real estate developments, guided by years of collective engineering experience. Our projects spread throughout Egypt's most significant destinations, from the historic areas of Old Cairo, to massive residential, commercial and administrative ventures in its newest growing districts, and several exemplary commercial ventures in Canada.

SHERATON HELIOPOLIS

The Doss family has left a heavy mark on Heliopolis within its iconic Sheraton district; continuing its storied track record in the Heliopolis real estate residential scene, El Batal Developments expands its hold over the Sheraton Heliopolis area with commercial buildings and managed to attract a wealth of successful partners.

Among them are Mercedes-Benz, Commercial International Bank (CIB), The National Bank of Egypt (NBE), Spinneys, Merck, PIL, ACE, The Ministry of Foreign Trade, and Avon Cosmetics to name a few.

ENGINEERING WITH PURPOSE

El Batal Developments has stretched its influence across the evolving new cities of Egypt. We own, finance, construct, and develop impressive real estate projects in Heliopolis, 6th of October, Obour, New Cairo, and now seizing a prime spot in the New Administrative Capital.

The secret to our success is simple: we're dedicated to real estate. Our expertise lies in finding the ideal land for impressive visions to materialize in the residential and commercial sectors. A solid foundation and the right location are our tools of the trade; no more is this better exemplified than in our Cultural Rock concept.

GOING ACROSS CONTINENTS

Led by engineers Adel and Emad Doss, El Batal Developments grew to new heights overseas in 2010, in Canada.

Entering an entirely new world of real estate, architectural code, regulations, and techniques was a challenge to the Doss brothers, to say the least. However, their progress soared, learning all the essential ins and outs of international code, licensing, and building procedures. This has allowed the company to establish six commercial ventures in Ontario - Canada, under its Canadian sister company, Doss Homes. Made to fit and go beyond the ideal Canadian requirements, Doss Homes eventually attracted the eyes of some core Canadian enterprises: Tim Hortons, CIBC Bank, Burger King, A&W, and Scotia Bank.

Only through learning the finer points of local and international code, licensing, and building procedures have we made a noteworthy mark on our combined land banks.

THE ROCK DEFINED

We implemented the ROCK Concept; a name found in all of our projects, indicating not only that we develop on Rock-solid foundations, but also a reflection of our intent to meet the needs and standards of our clients whether at home, at work or anywhere in between. Our Rock Concept could be an innovative, cultural or architectural or a new idea we present to the market, our profile of the Rocks promises residential and commercial landmarks for our clients.

Our crowning commercial achievement, Rock Capital 1 - an iconic administrative landmark, takes El Batal Developments' signature craft and practice to the New Administrative Capital, demonstrating the company's world-class architectural and cultural innovation, as well as strict adherence to proper building codes across its ventures.

MEET THE BOARD

Eng. Adel Doss
Chairman

Pioneering the future of El Batal Developments, Eng. Adel Doss brings more than 28+ years of real estate development expertise to the company's continued progress. A Civil Engineering graduate of Ain Shams University class of 1994 with honors and first-class distinction, Eng. Adel Doss has also studied the Ontario Building Codes and was awarded a license and certifications in high rise building construction in Canada.

He has worked tirelessly to uphold father and founder Eng. Samir Doss's standard of real estate excellence in El Batal Developments. Eng. Adel's passion for engineering visionary new projects, and his knack for instilling the values of trust and confidence in his teams, have helped shape what El Batal Developments represents today.

"Today, when I look back on the path we covered, it gives me a profound sense of pride and confidence in our strong and diverse team. These individuals are capable of managing any challenge under the leadership of the Board of Directors."

Eng. Emad Doss
Chief Executive Officer

Our CEO and lead visionary, Eng. Emad Doss, perfectly personifies what El Batal Developments stands for: creativity, perseverance, integrity, and reliability. A Civil Engineering graduate of Ain Shams University class of 1996 with honors, Eng. Emad Doss has been fully immersing himself in the expansive world of real estate. His 25+ years of engineering experience have led him to become CEO of El Batal Developments, taking the company to new heights both locally and across continents to Canada with Doss Homes.

Under Eng. Emad Doss's continued leadership, El Batal Developments has become a powerful and dependable name in the world of Egyptian and Canadian real estate. This is supported by our signature Rock Concept, extending the company's view of a better life to all who appreciate prime real estate.

"For the future, we believe that El Batal Developments will continue to grow in strength and size and will continue to provide our clients with accessible, quality service. All while assured that they are fully supported throughout the purchasing process, as well as after, thanks to our team."

THE PATH AHEAD

El Batal Developments envisions a future where international and local standards become one as far as real estate is concerned. We aim to constantly evolve our idea of how a life can be best lived through our long heritage of real-estate expertise.

THE MISSION AT HEART

To construct extraordinarily hospitable residential and commercial real-estate properties that elevate wellbeing and enrich human experiences.

Prevailing Invincibility

We do not fear roadblocks or hard work. We take on adversities with curiosity, steadfastness, and determination, trusting that we always emerge a mightier organization.
